LIVING SPRINGS ADVENTURE ACTIVITIES

Living Springs is AdventureMark accredited. AdventureMark a major national outdoor safety quality assurance programme.

To gain this accreditation work must be ongoing preparing, revising and ensuring our policies and procedures are up to industry standards. These policies and procedures undergo a complete independent audit, along with their subsequent application to the work we do with our clients in the outdoors.

This certification is very important to us. It means we can be confident that all is in order. We can assure our groups that we meet current accepted good practice in all aspects of our outdoors activity operation and Health and Safety obligations at camp.

One outcome of our AdventureMark accreditation is that you no longer need to view or receive physical copies of our policies and procedures, including AMPS forms. This will save you a large amount of background work prior to your arrival at camp. That work has been done for you by a qualified outdoor safety auditor. You can now spend that time getting yourself and your group ready for a great experience at Living Springs.

BENEFITS OF ADVENTUREMARK ACCREDITATION

- Promotes safe participation in outdoor recreation and education.
- Raises standards in outdoor programme delivery.
- Provides assurance that national outdoor sector standards for safety and professionalism are being met.
- Reduces the risk of injuries and accidents in the outdoors.
- Establishes procedures for continuous review and revalidation.
- Registration of our organisation as an adventure activity provider on the Worksafe website.

AdventureMark is New Zealand's largest adventure certification body and is formally recognised by Worksafe through an independent accreditation body JAS-ANZ.
